“Matt recently came to fix my toilet that kept running. Matt does residential services such as repairs, clean outs, power washing, gutter cleaning, snow removal, painting, moving, organizing, etc. Matt is a wonderful young man, has lots of energy and does just about any kind of handy man job. He is a neat worker and a gentleman also. He did not charge me a lot of money to fix my toilet problem. He bought a flapper at Home Depot and charged me for the part and some labor. I have had plumbers charge \$135.00 for a call and one plumber charged me that even though he had a 10 minute job to do. Plumbers are very expensive. Matt is just happy to get some business and he does not overcharge his customers. I highly recommend Matt as a handyman that our neighbors can use. No job is too small for Matt.”

Based on your suggestion I hired Matt today and he visited my home to repair two running toilets as well as other miscellaneous small repairs that included installing a new water shutoff valve on one of the toilets, repairing a ceiling fan and drilling out an old doorknob to replace it with a different sized knob. While here he also cleaned the gutters. Matt is a hard working guy, friendly and personable and eager to do a good job. Matt’s prices were a steal and in fact I gave him a little extra because I felt he was asking too little. I will use him again for miscellaneous small repairs especially if you are on a budget. He is worth giving a try.”

“They are excellent with any plumbing needs. It is a family-owned and operated business in Morris Plains. Their prices are fair, they explain everything that they do, will not proceed unless you give the okay, and will recommend others for jobs that they don’t handle. I couldn’t recommend Bob and his crew more highly. They are also extremely helpful with getting permits for jobs, which is something more and more towns are requiring.”

“I had Service Professionals install my new gas furnace and they did a great job! There were two workman who knew their job well. They took one day to do the job and that is what I liked about them. Have service men for one day and the job is over. I would recommend them to anybody and besides installing furnaces they also do air conditioning and plumbing.

“I had a problem with algae in my pool just before I was about to leave on a business trip and scheduled Steve to come out. Their follow up and customer service is excellent. Debbie is an absolute joy to deal with on the phone. Steve is highly knowledgeable and follows up with multiple calls. Very thankful to work with them and they do a great job of opening and closing my pool.”

“I never anticipated the process of buying a shed to be so complicated. I checked out a number of different places for sheds and decided to go with FPH for a number of reasons. Al’s staff was very helpful and walked me through all the options. Additionally, they have someone who can handle the site prep!! This was not available through any other shed company I looked into and a big concern for me. Al came out to review the site and spent a good deal of time finalizing the details and making sure the dimensions, colors, options, etc., were exactly what I wanted. Great prices, excellent follow-up and beautiful sheds.”

“I used Tree King to remove some large broken limbs, 20+ Chinese Elms and some overgrown shrubs in my backyard. I got three estimates and they came in the lowest. Additionally, I was able to save 10% off the initial estimate because of a Valpak coupon. The timing of the removal was very important due to another project I was starting in my backyard. I honestly think I called them at least 10 times with questions, requests, changes, etc. Wallace and the team arrived on the agreed upon date and walked me through exactly what they would be doing. They mulched everything and left the backyard remarkably clean.”
